It is also noteworthy here that as per injury statement of present petitioner prepared by the police (copy whereof is available at page #14 of instant petition), seven (07) injuries were noted by the police official and at Sr. No.6, pain on left foot was also noted and relevant portion of said injury statement is hereby scanned below:-

Aforementioned state of affairs reflects that injury on left foot was declared as “*Jurh Ghayr Jaifah Hashimah*” after receipt of X-ray report. On Court’s query, learned Assistant Advocate General, Punjab after perusing the record (produced by police official mentioned above) apprises that in the application moved by Attiq-ur-Rehman (now arrayed as respondent No.6 in the petition) for constitution of District Standing Medical Board, opinion of Radiologist/X-ray report was not challenged; perusal of report of District Standing Medical Board (copy whereof is available at pages No.15, 16 of instant petition as Annex “C”) reveals that District Standing Medical Board obtained X-rays No.10546 to 10549 from Radiologist of District Headquarter Hospital, Okara City wherein

fracture through head of proximal phalanx of 2nd toe of left foot was noted and relevant portion from said report, in this regard, is reproduced:-

“According to Radiologist DHQ Hospital Okara City, vide X-ray No.10546 to 10549 dated 23-11-2022, “Fracture through head of proximal phalanx of 2nd toe noted in x-rays of left foot.”

Perusal of aforementioned opinion of Radiologist reveals that chance of any fabrication regarding said injury/fracture was not observed by said Radiologist, however, District Standing Medical Board opined that possibility of fabrication regarding said injury No.6 is “Yes” on the ground that small bone was fractured and it was easy to fracture and relevant portion of the report, in this regard, is hereby reproduced:-

“CONCLUSION/OPINION OF THE MEDICAL BOARD

“The District Standing Medical Board is of the opinion that possibility of fabrication injury No.(1)(2)(3)(4)(5)(7) “No” whereas injury No.(6) possibility of fabrication is “Yes” Because,
. Small bone fracture,
. Easy to fracture.

When all the aforementioned factors are taken into consideration in totality, then it has been noticed that when injury on the left foot was very much observed and noted by the police official at the time of preparing injury statement of the petitioner, same was also noted by the 1st Medical Examiner, which was confirmed as having fracture noted by the Radiologist *vide* X-ray report No.9603-04-05-06 dated:29-10-2022 and chance of any fabrication regarding said fracture was not noted by said Radiologist, on the basis of same, 1st Medical Officer declared nature of said injury and also mentioned that there was no chance of any fabrication, opinion of said Radiologist was not specifically challenged when application was moved by Attiq-ur-Rehman (now arrayed as respondent No.6) for constitution of District Standing Medical Board, Radiologist of District Headquarter Hospital, Okara City, when asked by District Standing Medical Board, issued X-ray report in which aforementioned fracture was again noted/confirmed and it was not mentioned even in said report that there was any chance of fabrication regarding said injury and District Standing Medical Board did not mention any reservation regarding genuineness/accuracy of opinion of 1st Radiologist as well as opinion of 2nd Radiologist and even did not refer

present petitioner to any other Radiologist, then while ignoring the said consistent X-ray/Radiologist reports, observing possibility of fabrication as “Yes” by District Standing Medical Board merely on the basis that small bone was fractured and it was easy to fracture requires re-assessment by the Provincial Standing Medical Board through re-examination (medical) of the injured because if opinion of District Standing Medical Board based on aforementioned reasons only is accepted, then in future if some small bone will be fractured or if any bone will be fractured which is easy to fracture, then it will be straightway observed that there is possibility of fabrication, which would be against the spirit of medical jurisprudence. Therefore, in peculiar facts and circumstances of the case, re-examination (medical) of petitioner/injured through Provincial Standing Medical Board is quite necessary for safe administration of justice but said aspect has been ignored and not taken into consideration at the time of passing impugned order dated:09.01.2023 by Area Magistrate whereby application filed by present petitioner for constitution of Provincial Standing Medical Board has been dismissed, hence, impugned order (mentioned above) is against the settled principles of law on the subject as well as facts of the case, thus, same is not sustainable in the eyes of law and is hereby set aside, application filed by the petitioner for constitution of Provincial Standing Medical Board is allowed/accepted and as a consequence whereof it is hereby ordered that Munir Ahmad (petitioner) shall be medically re-examined by the Provincial Standing Medical Board in accordance with law expeditiously/without loss of further time. Learned Assistant Advocate General, Punjab shall communicate this order to the concerned quarters for compliance. **Petition Allowed.**
